Maxrets Ventures Plc
Non-executive Chairman's Statement

Annual Report and Financial Statements
for the year ended 31 October 2022

Introduction

Maxrets Ventures plc (the "Company" or "Maxrets") is an investment company quoted on the Aquis Stock Exchange Growth Market ("AQSE"). The Company was incorporated on 1 October 2019 and its shares were admitted to trading on 30 December 2019.

In its annual report for the year ended 31 October 2021, the Board of Directors commented that the CBD sector had not performed well and the novel foods legislation developments in the UK, whilst assisting to provide clarity, would likely cause short to medium term turbulence in the market. Further, the Board advised that, within Europe, novel foods legislation was still to be agreed and that reaching such agreement had been much slower than initially anticipated. As a result, cannabis and CBD investments within Europe had proved difficult.

At the time, the Board further advised that it would take a cautious approach to CBD and cannabis investments and turn its attention to other areas of its investing strategy being related health, wellness and plant based medicine investments. During the period since that statement, the cannabis and related business sectors generally continued to perform poorly and the sectors did not generate the quality or underlying value of investment opportunities originally envisaged by the Company at the time of flotation in December 2019.

Following a review of the Company's area of focus and its operations in December 2022, the Board of Directors concluded that it was in the best interests of all shareholders for the Company to withdraw from the medicinal cannabis, CBD and related wellness markets and, instead, adopt a new investment strategy based on private equity style investing in technology driven businesses.

Change of Investing Strategy

The Board firmly believes that, as a result of the current challenging global economic and geopolitical landscape, opportunities now exist to invest in or acquire distressed or out of favour assets which have become undervalued, or, assets which may benefit from consolidation.

After the approval on 28 December 2022 by shareholders to a change in investing strategy and change in name of the Company from Greencare Capital plc to Maxrets Ventures plc, the Company's underlying investment driver became predominantly technology driven businesses based on their potential future value enhancement and investment returns.

The Board identified four sectors of initial focus, and will likely in future target other technology driven sectors. These initial sectors include Life Sciences, fintech businesses and assets that use fintech technology, Impact Investing (Environmental and Renewables) and Retail.

The Company now follows a growth incubator / pre-IPO investment philosophy as its investment strategy, whereby it will seek out early stage or undervalued later stage businesses with strong upside potential, with the objective of acquiring, funding, growing and selling-on the investments through the public markets at enhanced valuations.

The Board will not restrict the jurisdiction of investments since the application of technology is not constrained by geographic borders, however, the Board would expect that it will consider more investments in Europe than elsewhere.

Maxrets Ventures Plc
Non-executive Chairman's statement (continued)

Annual Report & Financial Statements
for the year ended 31 October 2022

Structure of Investments

The Company anticipates that investments will be made from the Company's own balance sheet and/or in partnership with other investing entities and will be expected to be in the form of equity and equity-related instruments, including convertible debt instruments, and, debt. The Company may offer its ordinary shares and debt instruments in exchange for shares in investee businesses. The Company may invest in quoted or listed companies, that are publicly traded, and private companies. It may acquire investments directly or by way of holdings in intermediate holding or subsidiary entities. The Company may also invest in limited liability partnerships and other forms of legal entity. The Company may invest in majority or minority positions and will ensure that it has suitable investor protection rights, as determined by the Board. The Company may, where appropriate and deemed by the Directors to be in the Company's best interests, seek a position on the boards of investee companies to actively monitor and assist the business including helping to scale senior management, inform and refine strategy, drive key performance indicators and provide guidance on future financing.

The Company intends to realise value through exiting the investments over time and will have no fixed investment period.

Investments in the portfolio

Maxrets has two legacy investments in the Cannabis sector that were both made in 2021.

Clearly Supplements Ltd

The first investment in March 2021 was a £100,000 investment in Clearly Supplements Ltd. ("Clearly") a UK based company offering CBD products direct to customers. The investment was by way of a convertible loan note ("CLN") with a 5 per cent. coupon and a 12-month duration. The CLN was expected to convert at the time of a public listing at a 30 per cent. discount to the placing price at that time. Clearly was planning to seek its own stock market listing and their application was well progressed with the FCA and passed eligibility. However, given changes in market conditions they have decided not to proceed with a listing.

Clearly developed a range of products under the Clearly CBD brand. It also established a number of distribution channels which retail and direct sales. It focused on certain key market segments such as the fitness sector and, at the same time, had been looking to build a retail presence and to operate online.

Due to market difficulties, the company reduced its cost structure and continued to fund its operations through a combination of product sales and capital raises. Following its decision to not proceed with an IPO, it is now seeking a strategic private equity partnership which appears to be progressing positively.

Given a lack of funding for marketing and business development, the underlying business sales have not grown as Clearly expected. Management decided to focus more on a direct sales model. This has proven more successful having grown the sales team from 80 in 2021 to more than 200 in 2022 with a significantly larger number of potential direct sales members in the pipeline. Clearly reports that it now moves towards break-even which it expects to achieve in the coming six months.

Maxrets Ventures Plc
Non-executive Chairman's statement (continued)

Annual Report & Financial Statements
for the year ended 31 October 2022

Voyager Life Limited

The second investment was made in April 2021; an equity investment of £100,000 in Voyager Life Limited ("Voyager"), a health and wellness business focused on CBD and hemp seed oil, that has developed a range of products under the Voyager and Voyager Life brands, including oils, gummies, bath and skincare products.

On 30 June 2021, Voyager announced that it had completed its own IPO and admission to trading on The AQSE Growth Market, with the Company holding approximately 2.8% of the enlarged issued share capital of Voyager at the time of flotation.

Voyager Life plc has grown considerably with over 50 formulated CBD and hemp products across the Voyager and Ascend Skincare brands, 3 of its own stores in Scotland and a distribution network that is now UK-wide. The company has begun manufacturing its own topical and skincare products, both for its own brands and also white label and private label customers. Voyager's last trading update indicated revenues of £178,000 to 31 March 2022.

Importantly, the company's balance sheet is strong with £1.4 million cash and £140,000 of inventory.

Investments during the year and Outlook

The Board considered a number of investments in the year to October 31 2022, initially in the Cannabis and related sectors, however ultimately decided following a positive vote from shareholders, to react to market conditions and change strategic direction.

The Board has a wide experience in venture, pre-IPO and Private Equity investing. Between them they have grown a number of businesses through to sale and to listing on public markets in sectors that include technology, retail, real estate, and life sciences. The intention is over time to add an advisory board to the Company to enhance knowledge in other areas as appropriate based on the opportunities being considered.

Since the financial year end, the Company has built a pipeline of opportunities within the new strategy. It has analysed two in detail and expects to begin to deliver on one of these opportunities in the coming months.

Maxrets Ventures Plc

Strategic Report

Annual Report & Financial Statements
For the year ended 31 October 2022

The Directors present their strategic report on Maxrets Ventures plc (the "Company") for the year ended 31 October 2022.

Principal Activity

Maxrets Ventures plc is an investment company quoted on the Aquis Stock Exchange Growth Market ("AQSE"). Its shares were admitted to trading on AQSE on 30 December 2019.

The Company's principal activity is investing with a private equity style strategy in technology driven businesses.

Business Review

The Statement of Comprehensive Income and Statement of Financial Position for the year are set out on pages 18 and 19 respectively. A review of developments affecting the Company during the year and of its prospects for the future appear in the Non-executive Chairman's Statement on page 2.

Key Performance Indicators

The Key Performance Indicators ("KPIs") for the Company are listed as follows:

	2022	2021
Earnings/(loss) per share (pence)	(£0.04)	(£0.03)
Cash and cash equivalents	£411,000	£878,000

Future developments

The Non-executive Chairman's Statement on page 2 provides information on the outlook for the Company.

Principal risks and uncertainty

The Company's strategy is to follow an appropriate risk policy, which effectively manages exposures related to the achievement of business objectives. The Board is responsible for approving the Company's strategy and determining the appropriate level of risk. The key risks which the Company faces are detailed as follows:

Business and investment performance risk

Business performance risk is the risk that the Company may not perform as expected either due to internal factors or due to competitive pressures in the markets in which they operate. The Company seeks investments in companies with growth potential. The Directors identify suitable investment opportunities in accordance with the investment strategy.

By their nature, smaller businesses, whether quoted or unquoted, are more volatile than larger, more established businesses and are less robust to withstand economic pressures. There is a risk that the Company's investments may encounter circumstances that result in a loss of value which could in turn damage the Company's share price.

Principal risks and uncertainty (continued)

Business and investment performance risk (continued)

The Board is of the view that obtaining timely information on the position of its investments is the most effective and appropriate management tool and to reduce this risk, the Board has put in place monitoring reports on the performance of, and regular dialogue with the boards of the Company's investments.

Valuation risk

Valuation risk is the risk that the value of the investment when made was overstated. The Board seeks to mitigate this risk by conducting its own due diligence on the history and prospects of investment targets, including sourcing independent valuations and opinions. The risk is further mitigated by seeking investments where there is a high valuation margin (valuation per share compared to price paid per share) and the [increased] prospect of early returns.

Market conditions

Market conditions, especially in the context of the war in Ukraine, broken out throughout the year under review, may have a negative impact on the Company's ability to make investments in suitable entities which generate acceptable returns, or to disinvest in a timely manner such that acceptable returns can be realised.

This risk is mitigated by selecting quoted investments listed on liquid markets and unquoted investments where due diligence has indicated near-term liquidity events.

Foreign exchange

The Company has issued Euro-denominated bonds and has made Euro-denominated investments. This may give rise to exposure to movements in the exchange rate between the Euro and GBP. This risk is mitigated by virtue of the bond liability and invested assets providing a natural hedge, and management will seek at all times to mitigate any latent exposure by active currency management. The Company is monitoring matters and seeking advice from foreign exchange specialists as to how to mitigate the risks arising if and when they may occur, and would consider using derivatives to lock-out exposures.

Financial sanctions on Russia

Worldwide financial sanctions on Russia are likely to lead to increased market volatility and could make it more difficult to do business in Europe. However, the likely future impact is difficult to assess at this stage but the Company will continue to monitor the situation closely.

Promotion of the Company for the benefit of the members as a whole

The Directors believe they have acted in the way most likely to promote the success of the Company for the benefit of its members as a whole, as required by s172 of the Companies Act 2006.

The requirements of s172 are for the Directors to:

- Consider the likely consequences of any decision in the long term;
- Act fairly between members of the Company;
- Maintain a reputation for high standards of business conduct;
- Consider the interest of the Company's employees;
- Foster the Company's relationships with suppliers, customers and others;
- Consider the impact of the Company's operations on the community and the environment.

The Directors believe that the application of S172 requirements can be demonstrated in relation to some of the key decisions made and actions taken during 2022.

Category	How the directors have engaged	Impact of action
Shareholders and investors	The Directors have communicated regularly with shareholders and investors via public announcements, its Annual General Meeting held in June 2021 and the publication of an interim statement.	The Company's share price has been maintained and it is in excellent financial position.
Suppliers	The Company has focused on developing long term and mutually beneficial relationships with its suppliers.	Relationships have been maintained with all suppliers in place at the beginning of the period.
Employees	Whilst the Company is small, it makes sure that it works closely with its employees and directors, keeping them all closely and regularly informed of all developments at the Company.	Employees and directors are committed to the Company's mission and objectives.

The Company is an early-stage investment company quoted on a minor exchange and its members will be fully aware, through detailed announcements, shareholder meetings and financial communications, of the Board's broad and specific intentions and the rationale for its decisions. The Company pays its employees and creditors promptly and keeps its costs to a minimum to protect shareholders funds. When selecting investments, issues such as the impact on the community and the environment have actively been taken into consideration.

This strategic report was approved by the Board of directors on 26 April 2023 and signed on its behalf by:

.....
Dominic White
Non-executive Chairman

Maxrets Ventures Plc

Directors' Report

Annual Report & Financial Statements
for the year ended 31 October 2022

The Directors present their report and the audited financial statements of the Company for the year to 31 October 2022.

Directors

The Directors of the Company during the year were:

Martin Walton	Independent Non-executive Director (appointed 28 April 2022)
Dominic White	Non-executive Chairman (appointed 28 April 2022)
Monica Formenti	Non-executive Director (appointed 20 September 2021)
Richard Tonthat	CEO (resigned 28 April 2022)
Guy Winterflood	Independent Non-executive Director (resigned 28 April 2022)

The Directors' biographies can be found on page 11.

Dividends

The Directors do not recommend payment of a dividend for the year ended 31 October 2022 (2021: £nil).

Directors' remuneration

The total remuneration of the Directors for the year was as follows:

	Fees/ Basic Salary £
Martin Walton	14,000
Dominic White	36,447
Monica Formenti	36,417
Richard Tonthat	56,250
Guy Winterflood	17,500
	160,614

Pensions

The Company had no pension schemes in place during the period under review.

Directors' interests

The Directors had no interests in the shares of the Company at the end of the year.

Option scheme

The Company operates an unapproved share option scheme and has granted options to its directors. A summary of the option granted to each director is shown below. See note 12 for further details on the options.

	Number of options granted
Nicholas Lee	174,545
Guy Winterflood	174,545
	349,090

Events post- balance sheet date

Details of significant events since the balance sheet date are contained in Note 16 to the financial statements and covered in the outlook section of the Non-executive Chairman's Statement.

Future developments

The Non-executive Chairman's Statement on page 2 provides information on the outlook of the Company.

Substantial shareholdings

As far as the Directors are aware, as at 20 April 2023, the following shareholders are interested in 3% or more of issued share capital of the Company.

Shareholder	Number of Ordinary Shares of 1p each	% of Issued Share Capital
E Value One Limited	8,000,000	66.4%
Eight Capital Partners plc	2,480,000	20.6%
Carolina Filippini	500,000	4.2%

Going concern

As at 31 October 2022, the Company had cash of £0.4million. As an investment business, the Company has limited operating cash flow and is dependent on the performance of its investments and its cash balances for its working capital requirements. The Company has full discretion over the deployment of capital for new investments as long as it is in line with its stated investment policy, and also closely manages legal fees and due diligence costs of all potential investments. Annualised normal running costs of the Company are circa £0.28million and the Company is due to receive £0.1m of VAT refunds. As at the date of this report, the Company had approximately £0.3million of cash at bank.

The Directors are confident that the Company will achieve its cash flow forecasts and, taking into account the operating initiatives already in place, have prepared the accounts on a going concern basis. Nevertheless, the forecasts show that the Company may have a low level of cash in twelve months time and may require further funding in the longer term to meet its commitments as they fall due. These conditions and events indicate the existence of material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern and the Company may therefore be unable to realise their assets and discharge their liabilities in the ordinary course of business. These financial statements do not include the adjustments that would result if the Company were unable to continue as a going concern.

Statement of directors' responsibilities

The Directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with U.K. Adopted International Accounting Standard (IFRS and applicable law).

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit and loss for that period.

Maxrets Ventures Plc
Directors' Report (continued)
Annual Report & Financial Statements
for the year ended 31 October 2022

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable International Accounting Standards, have been followed subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. The Directors are also responsible for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Statement of disclosure of information to auditors

Each Director in office at the date of approval of this Directors' report confirms that:

- So far as the Director is aware, there is no relevant audit information of which the Company's auditor is unaware; and
- The Director has taken all the steps that he ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

Independent auditor

MAH, Chartered Accountants have been appointed as auditors for the year ended 31 October 2022 and have expressed their willingness to continue in office as auditor and will be proposed for reappointment at the next Annual General Meeting.

This report was approved by the Board of Directors on 26 April 2023 and signed on behalf of the Board by.

Dominic White
Non-executive Chairman
26 April 2023

Maxrets Ventures Plc

Directors' Profiles

Annual Report & Financial Statements
For the year ended 31 October 2022

Board of Directors

As at the date of this report, the Board of Directors comprised:

Dominic White

Non-executive Chairman (appointed 28 April 2022)

Dominic White is a Chartered Surveyor and a member of the Institute of Chartered Financial Analysts with more than 25 years' experience in the investment sector, He has held a number of Board level investment positions at international institutions including Security Capital European Realty, Henderson Global Investors and Cordea Savills Investment Management. Dominic has acquired and managed more than £3bn of assets in the UK and Europe across multiple sectors, in funds, joint ventures, corporates and numerous regulated entities. He has operated in both public and private capital markets. Dominic has held Board executive and non-executive roles at several number of public companies, including Limitless Earth plc and Energiser Investments plc and is currently a Non-executive Director of both Eight Capital Partners plc and Zamaz plc.

Martin Walton

Independent Non-executive Director (appointed 28 April 2022)

Martin Walton has many years' experience at Board level of companies within the life sciences, biotech and medtech sectors/industries and within investment and commercial banking. He is currently a Non-executive Director of AIM listed Reneuron Group plc, a UK-based leader in Stem Cell and Exosomes Technologies and is Chairman and CEO of Bradshaw Consulting Limited, a strategic advisory group assisting companies and shareholders in creating, generating and realising value from investments in life sciences and tech sectors. He was previously at Excalibur Group Fund Management, was a co-founder of Arix Bioscience plc and Arthurian Life Sciences Limited and has held senior positions at Standard Bank and Toronto-Dominion Bank.

Monica Formenti

Non-executive Director

Monica qualified as a Lawyer in 2009 in Milan, Italy, and has practiced corporate and commercial law for a number of multi-national organisations since then. She is currently a director of an international corporate advisory firm in Milan, providing wide-ranging advice on all legal matters relating to corporate and civil law, including corporate governance, commercial agreements, M&A and corporate finance. Previously she worked for 11 years at PPG Industries Inc based in Milan, part of a multinational organisation operating in the chemicals industry as Head of its Legal Department. This included dealing with all legal and corporate/compliance issues, commercial contracts and other regulatory matters including the management of shareholder meetings.

Independent auditor's report to the members of Maxrets Ventures plc
For the year ended 31 October 2022

Opinion

We have audited the financial statements of Maxrets Ventures plc (the 'company') for the period ended 31 October 2022 which comprise the Income Statement, the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity, the Statement of Cash Flows and notes to the financial statements, including significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and UK adopted international accounting standards.

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 October 2022 and of its loss for the period then ended;
- have been properly prepared in accordance with and UK adopted international accounting standards; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard as applied to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Material uncertainty relating to going concern

We draw attention to note 2 in the financial statements, which indicates that the company had a cash balance of £0.4 million at the year end. As stated in note 2, these events or conditions, along with the other matters as set forth in note 2, indicate that a material uncertainty exists that may cast significant doubt on the company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate. Our evaluation of the directors assessment of the entity's ability to continue to adopt the going concern basis of accounting included:

- Reviewing the cash flow forecasts prepared by management for the period up to April 2024, providing challenge to key assumptions and reviewing for reasonableness;
- A comparison of actual results for the period to past budgets to assess the forecasting ability/accuracy of management;
- Reviewing post-year end RNS announcements and held discussions with management on expenditure plans; and
- Assessing the adequacy of going concern disclosures within the financial statements.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Independent auditor's report to the members of Maxrets Ventures Plc (continued)
For the year ended 31 October 2022

Materiality

The materiality for the financial statements as a whole was set at £14,100. This has been determined with reference to the benchmark of the company's gross expenses, which we consider to be an appropriate measure based on the activities of the company during the year. Materiality represents 2.5% of total expenditure as presented on the face of the Statement of Comprehensive Income.

An overview of the scope of our audit

We tailored the scope of our audit to ensure that we were able to give our audit opinion on the financial statements of Maxrets Ventures plc taking into account the nature of the company's activities, the company's risk profile, the accounting processes and controls, and the environment in which the company operates.

We designed our audit to ensure that we obtain sufficient and appropriate audit evidence in respect of:

- The significant transactions and balances;
- Other items, which, irrespective of size, are perceived as carrying a significant level of audit risk whether through susceptibility to fraud, or other reasons;
- The appropriateness of the going concern assumption used in the preparation of the financial statements.

Independent auditor's report to the members of Maxrets Ventures Plc (continued)
For the year ended 31 October 2022

Key audit matters

We identified the key audit matters described below as that which were the most significant in the audit of the financial statements of the current period. Key audit matters include the most significant assessed risks of material misstatement, including those risks that had the greatest effect on our overall audit strategy, the allocation of resources in the audit and the direction of the efforts of the audit team.

In addressing this matter, we have performed the procedures below which were designed to address the matter in the context of the financial statements as a whole and in forming our opinion thereon. Consequently, we do not provide a separate opinion on this individual matter.

Key audit matter & description of risk	How the matter was addressed in the audit and key observations arising with respect to that risk
<p><u>Going concern</u> The company has used going concern basis of preparation in its accounting policies. However, there is significant judgement required as to whether the company can continue to operate as a going concern.</p>	<p>We evaluated management's assessment about going concern and challenged the judgement made by management, as described in note 2.</p> <p>As part of our procedures we:</p> <ul style="list-style-type: none"> • Reviewed the company's environment, controls and management's assessment of the company's ability to continue as a going concern. • Reviewed the cashflow forecasts and assumptions made and the data sources. <p>Based on our procedures we concluded that the going concern basis of preparation is appropriate. (See also Material uncertainty relating to going concern above).</p>
<p><u>Valuation of unquoted investments</u> The value for unquoted investments is reliant on third party financial information and projections. Due to the nature of the unquoted investments, there is a lack of observable inputs and therefore the key risk is considered to be the fair value of investments. We therefore identify the valuation of unquoted investments held for trading as high risk.</p>	<p>We obtained an understanding of the methodologies used by management to determine the fair value of unquoted investments. We reviewed and checked the estimates and calculations for fair value and reviewed the latest information regarding business performance and fundraising activities.</p> <p>The adequacy of disclosures in the financial statements in respect of the methodologies, assumptions and fair value hierarchy was reviewed.</p>

Independent auditor's report to the members of Maxrets Ventures Plc (continued)
For the year ended 31 October 2022

Other information

The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon. Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit, or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial period for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and the directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or the directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Independent auditor's report to the members of Maxrets Ventures Plc (continued)

For the year ended 31 October 2022

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below:

- We obtained an understanding of the group and parent company and the sector in which they operate to identify laws and regulations that could reasonably be expected to have a direct effect on the financial statements. We obtained our understanding in this regard through discussions with management, industry research and the application of cumulative audit knowledge and experience of the sector.
- We determined the principal laws and regulations relevant to the group and company in this regard to be those arising from:
 - Aquis rules;
 - Companies Act 2006;
 - Employment Law;
 - Anti-Bribery Money Laundering Regulations; and
 - QCA compliance
- We designed our audit procedures to ensure the audit team considered whether there were any indications of non-compliance by the group and company with those laws and regulations. These procedures included, but were not limited to:
 - review of legal and professional fees to understand the nature of the costs and the existence of any noncompliance with laws and regulations;
 - discussion with management regarding potential non-compliance; and
 - review of minutes of meetings of those charged with governance and RNS
- We also identified the risks of material misstatement of the financial statements due to fraud. We considered, in addition to the non-rebuttable presumption of a risk of fraud arising from management override of controls, the potential for management bias was identified in relation to the going concern of the group and company and as noted above, we addressed this by challenging the assumptions and judgements made by management when auditing that significant accounting estimate.
- As in all of our audits, we addressed the risk of fraud arising from management override of controls by performing audit procedures which included, but were not limited to: the testing of journals; reviewing accounting estimates for evidence of bias; and evaluating the business rationale of any significant transactions that are unusual or outside the normal course of business.

Independent auditor's report to the members of Maxrets Ventures Plc (continued)
For the year ended 31 October 2022

Auditor's responsibilities for the audit of the financial statements (continued)

Because of the inherent limitations of an audit, there is a risk that we will not detect all irregularities, including those leading to a material misstatement in the financial statements or non-compliance with regulation. This risk increases the more that compliance with a law or regulation is removed from the events and transactions reflected in the financial statements, as we will be less likely to become aware of instances of non-compliance. The risk is also greater regarding irregularities occurring due to fraud rather than error, as fraud involves intentional concealment, forgery, collusion, omission or misrepresentation.

A further description of our responsibilities for the audit of the financial statements is available on the Financial Reporting Council's website at www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

1. General information

Maxrets Ventures plc is a public limited company limited by shares and was incorporated in England on 1 October 2019 with company number 12237710. Its registered office is 5 Fleet Place, London, EC4M 7RD.

The Company's shares are traded on the Aquis Stock Exchange Growth Market under ticker MAX and ISIN number GB00BJBYK814.

The Company's investment strategy during the year was to focus on investments in Cannabis sectors within countries that have well-developed and reputable laws and regulations for its production, research and distribution; and the CBD and Hemp sectors. Following shareholder approval at a General Meeting, the strategy has changed, as described in the Non-executive Chairman's statement starting on page 2 above.

The financial statements present the year to 31 October 2022.

2. Accounting policies

Basis of preparation

The financial statements of Maxrets Ventures plc have been prepared in accordance with U.K. Adopted International Financial Reporting Standards in conformity with the Companies Act 2006 ('Adopted IFRS').

These financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the recognition of listed investments at fair value.

The financial statements are presented in Pounds Sterling, which is the Company's presentation and functional currency, and are presented in £'000 unless otherwise stated.

The preparation of the financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment and complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3 to the financial statements.

2. Accounting policies (continued)

New and amended standards adopted by the Company

There are no IFRSs or IFRIC interpretations that are effective for the first time for the financial year beginning that would be expected to have a material impact on the Company.

The following new standards, amendments to standards and interpretations have been issued, but are not effective for the financial period beginning 1 November 2021 and have not been early adopted. The Directors anticipate that the adoption of these standard and the interpretations in future periods will have no material impact on the financial statements of the Company.

The new standards include:

IFRS 3	Business Combinations (amendments)
IAS 1	Presentation of Financial Statements (amendments)
IAS 37	Provisions, contingent liabilities and contingent assets (amendments)
IAS 16	Property, plant and equipment (amendments)

The directors anticipate that the adoption of these standards and interpretations in future periods will have no material effect on the financial statements of the Company.

Going concern

As at 31 October 2022, the Company had cash of £0.4 million. As an investment business, the Company has limited operating cash flow and is dependent on the performance of its investments and its cash balances for its working capital requirements. Annualised normal running costs of the Company are circa £0.28 million and the Company is due to receive £0.1 million of VAT refunds. As at the date of this report, the Company had approximately £0.3 million of cash at bank.

The Directors are confident that the Company will achieve its cash flow forecasts and, taking into account the operating initiatives already in place, have prepared the accounts on a going concern basis. Nevertheless, the forecasts show that the Company may have a low level of cash in twelve months time and may require further funding in the longer term to meet its commitments as they fall due. These conditions and events indicate the existence of material uncertainties that may cast significant doubt upon the Company's ability to continue as a going concern and the Company may therefore be unable to realise their assets and discharge their liabilities in the ordinary course of business. These financial statements do not include the adjustments that would result if the Company were unable to continue as a going concern.

The auditors have made reference to going concern by way of a material uncertainty within their audit report.

Income tax

Income tax expense represents the sum of the tax currently payable and deferred tax. Current income tax for current and prior periods is recognised at the amount expected to be paid to or recovered from the tax authorities, using tax rates and tax laws that have been substantively enacted by the balance sheet date in the countries where the Company operates and generates taxable income. Current income taxes are recognised in profit or loss except to the extent that the tax relates to items recognised outside profit or loss, either in other comprehensive income or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

2. Accounting policies (continued)

Income tax (continued)

Deferred tax is recognised on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be utilised. Unrecognised deferred tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow deferred tax assets to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is charged or credited to profit or loss, except when it relates to items charged or credited directly to other comprehensive income or equity, in which case the deferred tax is also dealt with in other comprehensive income or equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Provisions

A provision is recognised when the Company has a present obligation, legal or constructive, as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimate. If it is no longer probable that an outflow of economic resources will be required to settle the obligation, the provision is reversed. Where the effect of the time value of money is material, provisions are discounted using a current pre tax rate that reflects, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Financial instruments

A financial instrument is recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets are derecognised if the Companies contractual rights to the cash flows from the financial assets expire or if the Company transfers the financial assets to another party without retaining control or substantially all risks and rewards of the asset. Regular purchases and sales of financial assets are accounted for at trade date, i.e. the date that the Company commits itself to purchase or sell the asset. Financial liabilities are derecognised if the Companies obligations specified in the contract expire or are discharged or cancelled.

2. Accounting policies (continued)

Financial instruments (continued)

Financial liabilities

Initial recognition and measurement

Financial liabilities are recognised when, and only when, the Company becomes a party to the contractual provisions of the financial instrument. The Company determines the classification of its financial liabilities at initial recognition. Financial liabilities are recognised initially at fair value, plus, in the case of financial liabilities not at fair value through profit or loss, directly attributable transaction costs. As at the balance sheet date, the Company did not have any financial liabilities in the category of financial liabilities at fair value through profit or loss.

Subsequent measurement

Financial liabilities are subsequently measured at amortised cost using the effective interest rate method. Gains and losses are recognised in profit or loss when liabilities are derecognised, and through the amortisation process.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the profit or loss.

Investments and other financial assets

The Company measures its equity investments as financial assets at fair value through the profit or loss.

Fair value measurement

The Company measures financial instruments and non-financial assets at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability; or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

2. Accounting policies (continued)

Fair value measurement (continued)

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements at fair value on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an assets or cash-generating unit's fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely dependent on those from other assets. Where the carrying amount of an asset or cash generating unit exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples or other available fair value indicators.

Impairment losses are recognised in profit or loss in those expense categories consistent with the function of the impaired asset, except for assets that are previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Company estimates the assets or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the recoverable amount of an asset since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. This increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in the profit and loss unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase.

2. Accounting policies (continued)

Share Capital

Share Capital consists of one class of ordinary shares. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

Ordinary shares bestow full rights on shareholders.

Warrants

Warrants are an option to acquire shares between two future dates at a fixed price. They are occasionally issued to third parties that invest in the Company's equity and are granted at the time of that equity investment.

There is a notional cost of the warrants expensed through the income statement in the period in which the warrants are granted, based on the fair value of the option and recalculated for each subsequent accounting period. The fair value itself is determined using the Black-Scholes model.

If the warrant options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to share capital (nominal value) and share premium.

Cash and cash equivalents

Cash and cash equivalents comprise cash at hand and current balances at banks.

Foreign currencies

Functional and presentation currency

The financial statements are presented in Pounds Sterling, which is the Company's presentation and functional currency.

Transactions and balances

Transactions in foreign currencies are converted into the functional currency on initial recognition, using the exchange rates approximating to those ruling at the transaction dates. At each period end foreign currency monetary items are translated using the rates ruling as of that date. Non-monetary assets and liabilities are not retranslated. All exchange differences are recognised in profit or loss.

3. Critical accounting estimates and judgements

Management makes certain estimates and assumptions regarding the future. Estimates and judgements are continually evaluated based on historical experience and other factors, including the expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Critical judgements in applying the entity's accounting policies

(a) Carrying value of investments

The Company is required to make judgments over the carrying value of investments in unquoted companies where fair values cannot be readily established and evaluate the size of any impairment required.

It is important to recognise that the carrying value of such investments cannot always be substantiated by comparison with independent markets and, in many cases, may not be capable of being realised immediately. Management's significant judgement in this regard is that the value of their investment represents their cost less previous impairment.

Further details relating to management's assessment of the carrying value of unlisted investments can be found in the Strategic Report. Management have concluded that there are indications of impairment to the value to the unlisted investments following this assessment, refer to Note 13.

4. Operating loss

The operating loss is stated after charging/(crediting):

	2022	2021
	£'000	£'000
Auditors' remuneration:		
Audit fees	12	12
Other taxation services	-	2
Share based payments	6	2

The Operating loss includes higher Administrative expenses of £564,000 in this financial year (2021: £376,000) relating in part to non-recurring due diligence costs on an aborted investment transaction. It also includes a prudence based impairment cost of £50,000 applied to the Clearly Supplements Ltd. Investment.

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

5. Staff costs

	2022	2021
The average number of persons (including executive directors) employed by the Company during the year:	3	3

	2022	2021
	£'000	£'000
Wages and salaries (including directors)	74	84
Social security costs	9	9
	83	93

Director's remuneration

	2022	2021
	£'000	£'000
Salaries and fees	161	97

6. Taxation

	2022	2021
	£'000	£'000
Taxation	-	-

Reconciliation of tax charge

Loss on ordinary activities before taxation	(559)	(373)
Current tax on loss of the year at standard rate of UK corporation tax of 19%	(106)	(71)
Expenses not deductible for tax purposes	14	-
Losses carried forward	92	71
Tax in the income statement	-	-

The Company has tax losses of approximately £1.28m (2021: £0.80m) to carry forward against future profits. The Directors have not recognised a deferred tax asset of £0.24m (2021: £0.15m) on the losses to date due to the uncertainty of recovery.

7. Earnings per share

	2022	2021
	£'000	£'000
Earnings		
Loss for the period	(559)	(373)

Number of shares

Weighted average number of shares for the purposes of basic and diluted earnings per share	14,792,374	14,792,374
Earnings per share (pence)	(3.78)	(2.52)

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

8. Trade and other receivables

	2022	2021
	£'000	£'000
Other receivables	100	59
Prepayments	30	3
	130	62

The directors consider that the carrying amount of receivables is not materially different to their fair value.

9. Trade and other payables

	2022	2021
	£'000	£'000
Trade payables	124	32
Taxation and social security	-	3
Accruals and other payables	15	19
	139	54

10. Share capital

	2022	2021
	£'000	£'000
14,792,374 Allotted, issued and fully paid Ordinary shares	148	148

11. Reserves

The Company's reserves are as follows:

- The share capital comprises the issued ordinary shares of the company at par.
- The share premium represents premiums received on the initial issuing of the share capital. Any transaction costs associated with the issuing of shares are deducted from share premium, net of any related income tax benefits.
- The share option and warrant reserve arise from the requirement to value share options and warrants in existence at the grant date (see Note 12).
- Retained earnings include all current and prior period results as disclosed in the statement of comprehensive income.

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

12. Share option and warrant reserve

The share option and warrant reserve are made up as follows:

Share options

Share options outstanding and their weighted average exercise price are as follows:

	Number	Weighted average exercise price (pence)
Outstanding at 1 November 2021	709,090	29.0p
Issued	-	-
Lapsed	(360,000)	30.5p
Outstanding at 31 October 2022	349,090	27.5p

Vesting criteria for options granted under the Scheme are as follows:

Amount vesting	Time conditions	Performance criteria
50% ("Tranche one")	On the business day following the first calendar year following the date of grant	the NAV on the Tranche One Vesting Date not being less than the NAV on the Grant Date
50% ("Tranche two")	On the business day following the second calendar year following the date of grant	the NAV on the Tranche Two Vesting Date being a minimum of 10% higher than the NAV on the Grant Date

The fair value is estimated as at the issue date using a Black-Scholes model, considering the terms and conditions upon which the options were granted. The following table lists the inputs to the model:

	2020	2021
Exercise price (pence)	27.5p	30.5p
Number of warrants	567,272	360,000
Expected volatility	30%	30%
Risk free interest (%)	(0.430%)	0.59%
Time to expiration at date of grant (i.e. life of options) in years	2	2

The total expense for the year in respect of the share options issued was £6,248.

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

12. Share option and warrant reserve (continued)

Warrants

The Company has in issue 1,808,606 investor warrants which expire December 2024.

Warrants outstanding and their weighted average exercise price are as follows:

	Number	Weighted average exercise price (pence)
Outstanding at 1 November 2021	1,808,606	25p
Issued	-	-
Outstanding at 31 October 2022	1,808,606	25p

The fair value is estimated as at the issue date using a Black-Scholes model, considering the terms and conditions upon which the warrants were granted. The following table lists the inputs to the model:

	2020
Exercise price (pence)	25p
Number of warrants	1,808,606
Expected volatility	30%
Risk free interest (%)	0.568%
Time to expiration at date of grant (i.e. life of warrants) in years	5

13. Financial instruments

The carrying values of the Company's financial assets and liabilities are summarised below:

	2022	2021
	£'000	£'000
Carrying amount of financial assets		
<i>Measured at amortised cost</i>		
Cash and bank balances	411	878
<i>Measured at fair value through profit and loss</i>		
Financial assets	95	164
Carrying amount of financial liabilities		
<i>Measured at amortised cost</i>		
Trade and other payables	139	54

Maxrets Ventures Plc
Notes to the financial statements
For the year ended 31 October 2022

13. Financial instruments (continued)

	2022 £'000	2021 £'000
Non-current assets		
Investments held at fair value		
Listed investments	40	64
Unlisted investments	55	100
	<u>95</u>	<u>164</u>
Categories of Financial assets at fair value		
Financial assets at fair value		
Fair value through profit and loss (FVTPL)		
- Listed investments	40	64
- Unlisted investments	55	100
	<u>95</u>	<u>164</u>
Changes in value of financial instruments at fair value for the year		
Charge to the Statement of Comprehensive Income	69	39

Valuation techniques and assumptions applied for the purposes of measuring fair value

The fair value of financial assets is determined using level 1 and level 2 of fair value hierarchy as outlined in the accounting policies note.

The Company raises finance through equity issues and places surplus cash on short term deposits, in addition to its principal activity. The Company has no borrowings facilities. The main risk associated with the company's financial instruments is market price risk. The policies for managing this risk are kept under review by the directors.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. The Company is subject to credit risk on its investments and cash. In accordance with the Company's policy, the Board of Directors monitors the Company's exposure to credit risk on an ongoing basis.

Liquidity risk

Liquidity risk arises from the Company's management of working capital. It is the risk that the Company will encounter difficulty in meeting its financial obligations as they fall due.

The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due. To achieve this aim, it seeks to maintain cash balances to meet expected requirements for a period of at least 90 days.

Market risk

Market risk is the risk that changes in market prices, such as equity prices, foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The Company's sensitivity to these items is set out below.

13. Financial instruments (continued)

Interest rate risk

The Company invests its surplus cash in a spread of fixed rate short term bank deposits to minimise risk and maximise flexibility. In doing so it limits its exposure to fluctuations in interest rate that re inherent in such markets. Overall, the risk is not considered to be significant.

Currency risk

The Company's holds Euro denominated currency to the total of €11,000, which expose the Company to the risk that the exchange rate of the Euro against the pound will change in a manner which adversely impacts the Company's net profit and net assets attributable to shareholders. A 10% increase in the Euro exchange rate against the pound would result in an decrease in the Company's loss before tax of approximately £1k. A 10% decrease in exchange rates against the pound would have an equal and opposite effect.
